

NORTHBRIDGE INSTITUTE OF TECHNOLOGY

Office of Finance and Accounts

TUITION FEE STRUCTURE 2026

Document code: NIT/FA/FEE/2026

Version: Version 1.0

Effective from: 1 July 2026

Classification: Academic policy - approved for student reference

1. Application

1.1 This fee structure applies to full-time undergraduate students of Northbridge Institute of Technology for the 2026-27 academic year. Amounts are stated in Indian rupees and apply unless an admission letter, scholarship sanction or programme notice expressly provides otherwise.

1.2 The document states charges and payment arrangements. Eligibility for any refund is governed separately by the Student Fee Refund Policy 2026.

2. Recurring Academic Charges per Semester

Tuition fee - INR 75,000.

Academic services fee - INR 4,500 for registration support, advising and academic records.

Laboratory and technology fee - INR 6,000 for laboratories, computing facilities and licensed academic resources.

Student activity fee - INR 2,000 for approved student development and co-curricular activities.

Examination administration fee - INR 2,500 for regular semester assessment and result processing.

2.1 The total recurring academic charge is INR 90,000 per semester. Course materials, personal equipment, repeat-course charges, supplementary examinations and optional services are not included in this total.

3. One-Time Charges at Admission

Admission processing fee - INR 2,000; non-refundable after admission processing begins.

Institute registration fee - INR 5,000.

Refundable caution deposit - INR 10,000, subject to adjustment for unpaid dues or damage.

Student identity card fee - INR 500 for the first card.

3.1 The one-time amount payable at admission is INR 17,500 in addition to the first-semester recurring academic charge.

4. Optional and Residential Charges

Hostel room charge - INR 28,000 per semester, subject to confirmed allotment.

Mess advance - INR 24,000 per semester. Final adjustment is based on the approved mess account.

Hostel caution deposit - INR 5,000 at first allotment; refundable after clearance of residential dues.

Institute transport - INR 12,000 per semester for students who register for an available route.

4.1 Hostel, mess and transport charges are not part of tuition. Payment of a charge does not guarantee allotment where capacity or eligibility requirements have not been met.

5. Additional Academic Charges

Supplementary examination - INR 1,200 per registered course.

Re-evaluation - INR 1,000 per course, subject to the limit and deadline in the Re-evaluation Policy 2026.

Repeat course - INR 5,000 per credit for a course repeated outside the normal full-time semester package.

Transcript - INR 500 for each official transcript set.

Replacement identity card - INR 750, excluding any separately notified penalty for repeated loss.

Duplicate grade report - INR 300 per document.

5.1 A student may be charged only for services requested or academic activities registered. The responsible office must issue a receipt or portal confirmation for every payment.

6. Payment Deadlines

6.1 Continuing students must pay Autumn Semester 2026 fees by 17 July 2026. Registration confirmation may be withheld until the required amount is received.

6.2 Spring Semester 2027 fees are due by 18 December 2026. Students receiving a result after this date must follow the payment instruction issued with the result or registration notice.

6.3 New students must pay by the date stated in the admission offer. The admission offer controls when its deadline differs from the general semester date.

6.4 Optional hostel and transport charges are due only after allotment or route confirmation, but must be cleared before use of the service.

7. Late Payment

7.1 A late fee of INR 500 applies during the first seven calendar days after the payment deadline.

7.2 From the eighth through the fourteenth calendar day, the total late fee is INR 1,500. The INR 1,500 amount replaces, and is not added to, the first-stage late fee.

7.3 After fourteen calendar days, academic registration may be suspended. Restoration requires payment of outstanding fees and written approval from the Registrar or authorised officer.

7.4 Late fees are calculated from the original deadline unless an official extension notice states a revised date.

8. Approved Payment Methods

8.1 Fees may be paid through the Institute payment portal using the methods displayed at the time of payment, or through a bank transfer specifically authorised by Finance and Accounts.

8.2 Cash payment is accepted only at a notified Institute counter. Students should not make payment to an individual employee or an unofficial account.

8.3 A portal receipt, bank reference or official counter receipt must be retained until the student account reflects the payment.

9. Instalment Arrangements

9.1 A student facing documented financial difficulty may request a two-instalment arrangement before the regular deadline. Approval is not automatic and applies only to the semester for which it is granted.

9.2 Unless the approval letter states otherwise, at least 50 percent of the recurring academic charge is payable by the regular deadline and the balance within thirty calendar days.

9.3 A missed instalment is treated as late from the instalment date and may lead to suspension of registration or services.

10. Scholarships, Sponsorships and Loans

10.1 A scholarship reduces the amount payable only after the Institute records a valid sanction. Submission of an application does not defer the fee deadline.

10.2 A sponsored student must provide an acceptable sponsorship letter before the payment deadline. The student remains responsible for any amount not covered by the sponsor.

10.3 Students using an education loan should arrange disbursement in time. A bank processing delay does not automatically waive a late fee.

11. Fee Corrections and Disputes

11.1 A suspected duplicate charge or missing payment must be reported to Finance and Accounts with the student number, transaction reference, date, amount and proof of debit.

11.2 A student should not initiate a payment reversal while a fee correction is under review. Unauthorised reversal may cause the account to be treated as unpaid.

11.3 Corrections approved by Finance and Accounts are posted to the student ledger. Any refundable excess is processed under the applicable financial procedure.

12. Refunds and Deposits

12.1 Withdrawal, course cancellation and admission cancellation refunds are determined only under the Student Fee Refund Policy 2026. The listing of a fee in this document does not establish refund eligibility.

12.2 Caution deposits are refundable after completion or withdrawal when all academic, library, hostel and financial clearances have been recorded. Approved deductions are shown in the final account statement.

13. Interpretation and Revision

13.1 Where an admission offer contains a programme-specific charge, that charge applies to the named student and programme. A later official fee notice may amend the amounts or deadlines in this document.

13.2 Students should verify charges through the official portal and quote document code NIT/FA/FEE/2026 when seeking clarification.
