Student Financial Support Office

MERIT SCHOLARSHIP POLICY 2026-27

Document code: NIT/SFS/MERIT/2026-27

Version: Version 1.0

Effective from: 1 July 2026

Classification: Student financial support policy - approved for student reference

1. Purpose and Coverage

1.1 The Institute Merit Scholarship recognises sustained academic achievement among full-time undergraduate students of Northbridge Institute of Technology.

1.2 Awards are made for one academic year and are subject to the eligibility, ranking, renewal and funding rules in this policy. A scholarship is a fee concession and does not guarantee continued support in a later year.

2. Scholarship Categories

Merit Scholarship A - A tuition concession of 50 percent, equal to INR 37,500 per semester under the 2026 fee structure. It is normally offered to students ranked within the top 3 percent of the eligible programme and year group.

Merit Scholarship B - A tuition concession of 25 percent, equal to INR 18,750 per semester. It is normally offered to the next 7 percent of the eligible programme and year group.

2.1 The number of awards is calculated separately for each programme and year group. A fraction of 0.5 or above is rounded up, subject to at least five eligible students in the group.

2.2 The Scholarship Committee may leave an award unfilled when no applicant meets the minimum standard. Unused awards are not automatically transferred between programmes.

3. Continuing-Student Eligibility

3.1 The applicant must be registered as a full-time undergraduate student and must have completed the preceding academic year at the Institute.

3.2 A minimum cumulative grade point average of 8.00 is required. Ranking is based on the final CGPA recorded after the regular result and any completed re-evaluation process.

3.3 The applicant must have passed every registered compulsory course from the preceding academic year and must not have an F or unresolved I grade.

3.4 The applicant must have earned at least 36 credits during the preceding academic year unless a lower approved curriculum load applied.

3.5 The applicant must have no active disciplinary action or finding of examination misconduct.

3.6 The applicant must not have been debarred from an examination for attendance shortage. An approved attendance relaxation does not by itself disqualify the applicant.

4. Newly Admitted Students

4.1 A limited first-year award may be offered using the Institute's approved admission merit list. The admission notice states the applicable rank range and number of awards.

4.2 A first-year award is provisional until the student completes registration, verifies admission documents and pays any balance not covered by the scholarship.

5. Application and Deadline

5.1 Continuing students must submit the online merit scholarship application no later than 5:00 p.m. on 18 September 2026.

5.2 A later official extension notice changes the deadline only when it identifies this scholarship cycle and states a revised closing date.

5.3 The portal reference for the 2026 cycle is SCH-MERIT-26. Submission is complete only when the portal generates an acknowledgement number.

6. Required Documents

- a. Previous academic year's official grade report.
- b. Current semester registration confirmation.
- c. Student declaration of scholarships, sponsorships and fee concessions already received or pending.
- d. Current family income certificate or income declaration in the format notified by the Student Financial Support Office.
- e. Any correction or equivalence approval needed to interpret the academic record.

6.1 Family income does not determine the academic ranking for a merit scholarship. The document is collected to administer overlapping assistance, reporting and any funding condition attached to the award.

6.2 The office may verify documents against Institute records. False or altered information results in rejection and may be referred for disciplinary action.

7. Ranking and Tie-Breaking

7.1 Eligible applicants are ranked by CGPA within their programme and year group.

7.2 If two or more applicants have the same CGPA, priority is determined by the higher total grade points earned in the preceding academic year, followed by the higher number of credits completed without repeat registration.

7.3 If a tie remains, the Committee compares the number of A+ and A grades. A final unresolved tie may result in equal awards only when funds permit; otherwise, the Committee records an objective selection decision.

8. Selection and Notification

8.1 The Student Financial Support Office verifies applications and places the eligible ranking before the Scholarship Committee.

8.2 Selected, wait-listed and rejected applicants are notified through the student portal. The decision notice states the category, academic year and amount of the concession.

8.3 A wait-listed student receives an award only after an award becomes available and written confirmation is issued.

9. Application Review

9.1 A student may request correction of a factual record error within seven calendar days of the decision. The request cannot introduce documents that were required but omitted by the application deadline, unless the omission resulted from an Institute system error.

10. Award Application and Disbursement

10.1 The scholarship is posted to the student fee ledger against tuition. It is not paid as a cash stipend.

10.2 When the student has already paid full tuition, the approved concession is credited to the next payable semester or refunded under the verified excess-payment procedure.

10.3 The scholarship does not cover academic services, laboratory and technology, student activity, examination administration, hostel, mess, transport or additional academic charges.

11. Renewal

11.1 Renewal is not automatic. The student must apply in each published cycle and continue to satisfy the minimum CGPA of 8.00, course-completion, credit, disciplinary and attendance conditions.

11.2 A student whose CGPA remains at or above 8.00 may still lose the award when ranked outside the available category or when required documents are not submitted by the deadline.

11.3 A grade change completed after selection is considered only when the revised result was requested within the regular re-evaluation deadline and is recorded before the final scholarship list.

12. Other Financial Assistance

12.1 A student may not hold more than one Institute-funded tuition scholarship for the same semester. When eligible for multiple Institute awards, the student receives the higher concession unless a specific scheme states otherwise.

12.2 External scholarships and sponsorships must be disclosed. Combined assistance may not exceed the tuition and eligible fees actually charged.

12.3 Any excess caused by overlapping awards is returned to the relevant funding source or adjusted in the student ledger.

13. Suspension, Withdrawal and Recovery

13.1 An award may be suspended for withdrawal from the programme, cancellation of admission, false information, an active disciplinary sanction or failure to remain registered full-time.

13.2 When a scholarship recipient withdraws, the personally paid portion and the scholarship-funded portion are handled separately under the Student Fee Refund Policy 2026. Scholarship funds are not refunded to the student.

13.3 An amount credited through error or obtained using false information is recoverable as an Institute due.

14. Interpretation and Records

14.1 The Scholarship Committee records award calculations, rankings, tie-break decisions and approved exceptions. Personal financial documents are handled under the Institute's record and privacy requirements.

14.2 A later scholarship circular may revise the deadline or number of awards for a stated cycle. It does not alter the academic eligibility rules unless it expressly identifies the amended clause.
